ERRATA

New taxa and new replacement names published within the Errata chapters of some volumes may have been overlooked, therefore they are here listed separately:

- Pterostichus gatus* Davies, **nom. nov.** [Carabidae, published in vol. 2, December 31, 2004]
Pterostichus bhunetansis Davies, **nom. nov.** [Carabidae, published in vol. 2, December 31, 2004]
Pterostichus bucciperis Davies, **nom. nov.** [Carabidae, published in vol. 2, December 31, 2004]
Pterostichus parkwon Davies, **nom. nov.** [Carabidae, published in vol. 2, December 31, 2004]
Pterostichus gonar Davies, **nom. nov.** [Carabidae, published in vol. 2, December 31, 2004]
Pterostichus asinubas Davies, **nom. nov.** [Carabidae, published in vol. 2, December 31, 2004]
Pterostichus cunibakus Davies, **nom. nov.** [Carabidae, published in vol. 2, December 31, 2004]
Pterostichus setosicus Davies, **nom. nov.** [Carabidae, published in vol. 2, December 31, 2004]
Cissidium matthewsi Johnson **sp. nov.** [Ptiliidae, published in vol. 4, June 30, 2007]
Acrotrichis (A.) *williamsi* Johnson, **sp. nov.** [Ptiliidae, published in vol. 4, June 30, 2007]
Cardiophorus gurjevae Cate, **nom. nov.** (for *Cardiophorus gracilis* Gurjeva, 1966, nec *Cardiophorus gracilis* (Wollaston, 1864) [Elateridae, published in vol. 6, February 22, 2010])
Autosilis Kazantsev, **gen. nov.** type species *Cantharis nitidula* Fabricius, 1792 [Cantharidae, published in vol. 7, February 15, 2011]
Blephephaeus puae Lin, **nom. nov.** (for *Blephephaeus undulatus* Pu, 1999 nec *Blephephaeus undulatus* (Pic, 1930) [Cerambycidae, published in vol. 7, February 15, 2011])
Labidostomis centrisculpta kafiristanica Regalin & L. N. Medvedev, **nom. nov.** (for *Labidostomis nuristanica afghanica* Lopatin & Nesterova, 2007, nec *L. nuristanica afghanica* L. N. Medvedev, 1978) [Chrysomelidae, published in vol. 7, February 15, 2011]

ERRATA for VOLUME 1

Sphaeriusidae

- p. 26, add AB to distribution of *Sphaerius acaroides* Waltl, 1838

Gyrinidae

- p. 26, add original combination (*Gyrinus*) to *Aulonogyrus concinnus* Klug, 1833
p. 27, correct author, year and page of *Gyrinus* from O. F. Müller, 1764: xvii to *Gyrinus* Geoffroy, 1762: 193 [see ICZN, Opinion 1754]
p. 27, add: *guernei* Méquignon, 1942: 9 in synonymy with *Gyrinus distinctus* Aubé, 1838
p. 29, correct spelling of *Orectochilus allax* Peschet, 1923 to *fallax* Peschet, 1923
p. 29, add original combination (*Gyrinus*) to *Orectochilus villosus villosus* O. F. Müller

Trachypachidae

- p. 33, add CT to distribution of *Trachypachus zetterstedti* Gyllenhal, 1827

Hygrobiidae

- p. 35, add SZ to distribution of *Hygrobia hermanni* Fabricius, 1775

Noteridae

- p. 33, add N: TU AFR to distribution of *Canthydrus diophthalmus* (Reiche & Saulcy, 1855)
p. 34, remove AFR from distribution of *Canthydrus laetabilis* (Walker, 1858)
p. 34, add A: IQ SA SY to distribution of *Canthydrus luctuosus* (Aubé, 1838)
p. 34, add ORR to distribution of *Canthydrus nitidulus* Sharp, 1882, and add *bifasciatus* Régimbart, 1889b: 148 to its synonymy
p. 34, add AFR to distribution of *Canthydrus notula* (Erichson, 1843)
p. 34, remove *Neohydrocoptus angolensis* (Peschet, 1925), the Palaearctic records refer to *N. jaechi*
p. 34, add: N: EG A: SI to distribution of *Neohydrocoptus jaechi* (Wewalka, 1989)

- pp. 25/26, remove incorrect statement concerning *Lepidopteryx* Hope, 1840: *Trogosita squamosa* Gray, 1832 [not Hope, 1840] is not a junior synonym of *Peltis squamulata* Gebler, 1830 as indicated in the Errata to volume 4 in volume 6 of the Palaearctic Catalogue (p. 26). It is a junior synonym of *Trogosita varia* Fabricius, 1801 of Africa as pointed out by L veill  (1888: cxcii) in the *Annales de la Soci t  Entomologique de France* (6e s rie), volume 8. This brings about that *Lepidopteryx* Hope, 1840 is not a senior synonym of *Leperina* Erichson, 1844 as listed in the Errata (P. 25) but a junior synonym of *Gymnocheilus* Dejean, 1835 and that *Leperina* Erichson, 1844 is the valid name for the genus including *Trogosita decorata* Erichson, 1842 as listed in volume 4 of the Palaearctic Catalogue (p. 364)
- p. 42, *Microarthron komarowi* (Dohrn, 1885): the original spelling of the species epithet is *komaroffi*, a patronym in honour of General Komaroff. The spelling "*komarowi*" is not in prevailing usage, see e.g., Plavilstshikov, 1932, 1936; Kostin, 1973; Lobanov et al., 1981; Danilevsky, 1975, 1984;  v cha, 1987, and others who used the spelling "*komarovi*". Therefore, the original spelling *komaroffi* should be maintained
- p. 44, *Dorcadion sulcipenne argonauta* Suvorov, 1913: the changed rank was previously published, see Lazarev M. A. 2008: Zametki po spornym voprosam sistematiki i rasprostraneniya zhukov-usachey (Coleoptera, Cerambycidae) Rossii i sopredelnykh stran. Pp. 129-136. *Aktualnye problemy prioritnykh napravleniy razvitiya estestvennykh nauk. Sbornik statey*. Moskva: Prometey MPGU, 220 pp.
- p. 44, *Agapanthia subnigra* Pic, 1890 and *A. subchalydaea* Reitter, 1898 were previously resurrected by Pesarini & Sabbadini, 2004b
- pp. 44/45, replace *Dorcadion sareptanum kubanicum* Plavilstshikov, 1934 by *Dorcadion sareptanum euxinum* Suvorov, 1915, and replace the discussion by: "According to Plavilstshikov (1958a: 181), the male syntypes of *Dorcadion euxinum* Suvorov, 1915 (described from Novorossiysk) are *D. sareptanum* Kraatz, 1873, and at least one type-female is *D. cinerarium* (Fabricius, 1787)". Consequently, Danilevsky et al., 2005 established the synonymy of *D. sareptanum euxinum* Suvorov and *D. kubanicum* Plavilstshikov. In fact, the description of *D. euxinum* Suvorov, 1915 was based on a single male, and that is the holotype subsequently studied by Plavilstshikov (1958a), but recently (2009) not located. Two females (ZIN – one erroneously considered as a male) were incorrectly designated by Suvorov as types of his *D. euxinum*, as they are not mentioned in his original description. The female designated by Suvorov as a male cannot be the holotype, as it is much larger (14 mm, while the holotype is given as 11.5 mm), and has many different characters. The name *D. euxinum* Suvorov was several times published by Plavilstshikov (1921: 111; 1931: 64; 1958: 118 [in volume 6 of the Catalogue]) as a synonym of *D. cinerarium*, because Plavilstshikov considered the erroneously designated females as the types of *D. euxinum* Suvorov
- p. 46, *Dorcadion arietinum strandi* Plavilstshikov, 1931: the synonymy was previously established by Breuning (1962: 230) who placed "*strandii* Plav." as a morph of *D. phenax* Jakovlev, 1900, and subsequently in Danilevsky M. L. 2009: Species group taxa of longhorned beetles (Coleoptera, Cerambycidae) described by N. N. Plavilstshikov and their types preserved in the Zoological Museum of the Moscow State University and in the Zoological Institute of the Russian Academy of Sciences, St. Petersburg. *Entomologicheskoe Obozrenie* **88**: 630–663 [in Russian] and *Entomological Review* **89**: 689-720
- p. 46, *Leptura apicalis* Motschulsky, 1875: the synonymy was previously established by Lazarev, 2008 (referred to above, see under *Dorcadion sulcipenne argonauta* Suvorov, 1913)
- p. 46, *Macrorhabdium* Plavilstshikov, 1915 and *Macrorhabdium ruficolle* Plavilstshikov, 1915: the synonymy was previously established by Danilevsky, 2009 (referred to above, see under *Dorcadion arietinum strandi* Plavilstshikov, 1931)
- p. 46, *Pterolophia multinotata* Pic, 1931: the synonymy was previously established by Lazarev, 2008 (referred to above, see under *Dorcadion sulcipenne argonauta* Suvorov, 1913)
- p. 47, correct spelling of *Poecilium alni elbursense* Holzschuh, 1977 to *elburzense* and treat it as valid; *P. alni latenigrum* Pic, 1945 is infrasubspecific and therefore not a senior synonym of latter
- p. 48, *Judolia tibialis* Marseul, 1876 is to be regarded as a senior synonym of *Cortodera pallidipes pallidipes* Pic, 1898, and not a nomen dubium (p. 124).
- p. 49/116, *Stictoleptura slamai* Sama, 2010 is given as a replacement name for *Stictoleptura martini* (Sl ma), because of *Leptura semirufula* var. *martini* Pic, 1945 transferred to *Stictoleptura*. It was however overlooked that Pic in his paper stated that the varieties he describes may be considered by other as aberrations. Hence, the numerous new "varieties" are infrasubspecific names, and therefore it was unnecessary to replace *S. martini* (Sl ma, 1985)
- p. 52, correct year for *Phytoecia (Blepisanis) vittipennis leuthneri* Ganglbauer to 1886
- pp. 53/110, remove *Sphenaria* Pic, 1911 from synonymy of *Pedostrangalia* Sokolov, 1897. *Sphenaria* Pic, 1911 is a misspelling of *Sphenalia* and is unavailable
- p. 56, *Phytoecia subannulipes* by Pic, 1910; Pic, 1910h stated "Cette esp ce d crite de Syrie...", and gave a definition; yet the name is a misspelling of *P. subannularis* Pic, 1901, repeated once more in Pic, 1911a: 9. Later, Pic (1915f: 11) stated that *P. subannulipes* is a Rumanian variety of *P. subannularis*. Thus, the name became available in 1915 and is a synonym of *P. icterica* (Schaller, 1783)
- p. 60, correct spelling of *Dorcadion erythropteron* Fischer von Waldheim, 1823 to *D. erythropteron*
- p. 77, remove *Coptocephala scopolina* f. *bipunctata* Depoli, 1926, f. *desituta* Depoli, 1926, f. *lateremaculata* Depoli, 1926, f. *scutellaris* Depoli, 1926 and f. *separata* Depoli, 1926; these names are considered infrasubspecific
- p. 79, correct author of *Smaragdina* to Chevrolat, 1836
- p. 83, *Thysbe* J. Thomson is currently in synonymy with *Colasposoma* Laporte, 1833, not *Platycorynus* Chevrolat, 1836
- p. 83, correct spelling of Verma & al., 2005 to Verma & al., 2005

- p. 85, remove entry *Antinoe* J. Thomson, 1864 from synonymy of *Distenia* [it is a junior homonym replaced by *Novantinoe* Santos-Silva & Hovore 2007, and resurrected as valid genus]
- p. 85, add [HN] to entry *Thelxiope* J. Thomson, 1864: 226 and add its replacement name in synonymy with *Distenia*: *Thomsonistenia* Santos-Silva & Hovore, 2007: 3 [RN] type species: *Thelxiope viridicyanea* J. Thomson, 1864
- p. 85, correct year of *Distenia mellina* Holzschuh, *perforans* Holzschuh, and *rufobrunnea* Holzschuh to 1995
- p. 86, remove entry: *caspiica* Faldermann, 1835 from synonymy of *Parandra caspia* Ménériés, 1832; it is a misspelling
- p. 87, *Aegosoma* Audinet-Serville, 1832 is neuter, change grammatical gender of the species-group names from feminine or masculine to neuter
- p. 87, correct reference for *Aegosoma sinicum validicorne* to Gressitt, 1951b: 205
- p. 90, add *germari* Mulsant, 1846: 291 in synonymy with *Macrotoma myardi myardi* Mulsant, 1842
- p. 90, remove entry: *luzonum* Pascoe, 1869: 666 [HN] (*Macrotoma*) [in synonymy with *Bandar pascoei* (Lansberge, 1884)]; it is a misidentification
- p. 92, add *zarudnyi* Plavilstshikov, 1936: 80 (*Prionus*) [unjustified emendation] in synonymy with *Mesopriopus zarudnii* (Semenov, 1933)
- p. 92, correct spelling of *Microarthron komarowi* to *komaroffi* (Dohrn, 1885) and add following unjustified emendation in its synonymy: *komarovi* Semenov, 1935b: 241, 246 (*Prionus*) and *komarowi* Pic, 1898e: 33, 35 (*Prionus*)
- p. 94, add *pluschtschewskii* Semenov, 1900a: 252 (*Polyarthron*) [unjustified emendation] in synonymy with *Pseudopriopus bienerti* Heyden, 1885
- p. 96, remove entry: *pallescens* Holzschuh, 1993a: 20 A: GAN SHA from *Acanthoptera* and place it in *Parastrangalis*, p. 109
- p. 96, add NC NE SC to distribution of *Alosterna tabacicolor erythropus* Gebler, 1841
- p. 96, remove *fusca* Matsushita, 1930 from synonymy of *Alosterna tabacicolor erythropus* Gebler, 1841; it is infrasubspecific
- p. 96, remove JA NE SC from distribution of *Alosterna tabacicolor tabacicolor* (DeGeer, 1775)
- p. 96, remove entry *pallescens* Holzschuh, 1993a: 20 and place it under *Parastrangalis* Ganglbauer, p.109
- p. 97, remove *planeti* Pic, 1945, *curierensis* Pic, 1945, and *circascutellaris* Pic, 1945 from synonymy of *Anastrangalia dubia dubia* (Scopoli, 1763); these names are infrasubspecific
- p. 98, remove JA from distribution of *Anoplodera rufihumerale* (Tamanuki, 1938)
- p. 98, add [HN] to entry *Anoplodera rufipes rufipes* (Schaller, 1783), and add TR to its Asian distribution; the name is preoccupied by *Leptura rufipes* Goeze, 1777, and both were considered congeneric after 1899
- p. 98, add [HN] to entries: *atra* Paykull, 1800, *rufiventris* Tournier, 1872, and *villosa* Schoenherr, 1817 [in synonymy with *Anoplodera rufipes rufipes* (Schaller, 1783)]
- p. 98, correct year of *Anoplodera tenebraria* Holzschuh to 1995
- p. 99, under *Corennys*, remove entry *brevipennis prescutellaris* Pic, 1947
- p. 100, remove entry *auriflua* L. Redtenbacher, 1858 from synonymy of *Etorufus pubescens* (Fabricius, 1787); it is a nomen nudum
- p. 100, correct reference for *Gnathostrangalia* to Hayashi & Villiers, 1985a: 13
- p. 101, remove *femorata* Mulsant, 1863: 580 from synonymy of *Grammoptera abdominalis* Stephens, 1831 [it is a misidentification]
- p. 101, correct distribution of *Grammoptera ruficornis obscuricornis* Kraatz, 1886 to E: AB (Talysh) A: IN
- p. 101, add CT and TR to European distribution of *Grammoptera ruficornis ruficornis* (Fabricius, 1781)
- p. 101, add *holomelina* Donisthorpe, 1905: 182 to synonymy of *Grammoptera ruficornis ruficornis* (Fabricius, 1781) [note: the name *Grammoptera ruficornis* ab. *holomelina* Pool, 1905 from Great Britain is unavailable, though it was often used as valid. It was made available by H. Donisthorpe (1905), according to ICZN Art. 12.2. Totally black forms of *G. ruficornis* (with all legs also black) are unknown from any other parts of the species range (and neither in *G. ruficornis obscuricornis* Kraatz, 1886 from Talysh and Iran). Thus, the eventual validity of *holomelina* Donisthorpe, 1905 remains to be cleared]
- p. 101, add NC and NE to distribution of *Grammoptera (Neoencyclops) cyanea* Tamanuki, 1933
- p. 102, add *mediolineata* Pic, 1954a: 13 to synonymy of *Idiostrangalia contracta* (Bates, 1884), and remove it from *Strangalia* Audinet-Serville, 1835, p. 116 [note: according to N. Ohbayashi]
- p. 102, remove *milliati* Pic, 1945 from synonymy of *Judolia sexmaculata* (Linnaeus, 1758); the name is infrasubspecific
- p. 102/103, transfer *rufimembris* Pic, 1917 listed as nomen dubium in synonymy with *Judolia parallelopipeda* (Motschulsky, 1860)
- p. 103, remove entry *Strangaliella* Hayashi, 1976: 3 type species *Strangalia shikokensis* Matsushita, 1935 (= *Strangalia tenuicornis* Motschulsky, 1862) from synonymy of *Leptura* Linnaeus, 1758 and place it in synonymy with *Parastrangalis* Ganglbauer, 1889, p. 109
- p. 104, correct year for *unicolor* Olivier [in synonymy with *Leptura aethiops* Poda von Neuhaus, 1761] to 1797
- p. 104, add GAN SCH to distribution of *Leptura gradatula* Holzschuh, 2006
- p. 105/110, remove entry *tenuicornis* Motschulsky, 1862: 20 (*Strangalia*) A: JA (with its three synonyms) from *Leptura* Linnaeus, 1758, and place it in *Parastrangalis* Ganglbauer, 1889, p. 110
- p. 106, remove *albicornis* Tamanuki, 1942 from synonymy of *Metastrangalis ochraceoventra* Gressitt, 1935 and place it as valid species in *Metastrangalis*, occurring in TAI
- p. 106, remove *fukiensis* Tippmann, 1955 from synonymy of *Mimostrangalia lateripicta* Fairmaire, 1895 and place it as valid species in *Ischnostrangalis*, occurring in FUJ, p. 102

- p. 107, correct entry **subgenus** *Nivelliamorpha* Boppe, 1921 to **genus** *Nivelliamorpha*
- p. 107, remove *medioconexa* Pic, 1945 from synonymy of *Nustera distigma* (Charpentier, 1825); the name is not available
- p. 108, add KZ to Asian distribution of *Pachytodes erraticus erraticus* (Dalman, 1817)
- p. 109, correct year of *Parastrangalis congesta* Holzschuh and *P. eucera* Holzschuh to 1995
- p. 110, add [HN] to entry *jaegeri* Fairmaire, 1866b: 279 (*Leptura*) [in synonymy with *Pedostrangalia emmipoda* (Mulsant, 1863)]
- p. 111, remove entry *brevioripennis* Pic, 1955 from synonymy with *Pygostrangalia vittaticollis* (Pic, 1926) and place it as a valid species, with unknown distribution
- p. 113, remove entry *latenigra* Pic, 1915 from synonymy of *Stenurella septempunctata septempunctata* (Fabricius, 1792); it is correctly listed under *S. septempunctata suturata* (Reiche & Saulcy, 1858), p. 114
- p. 115, remove *hardenbergi* Bodemeyer, 1927 from synonymy of *Stictoleptura fontenayi* (Mulsant, 1839); the name was introduced as an aberration and is not available
- p. 115, add *fulvoapicalis* Plavilstshikov, 1932f: 174 (*Leptura*) in synonymy with *Stictoleptura fulva* (DeGeer, 1775)
- p. 115, replace *maculicornis maculicornis* DeGeer, 1775 by *maculicornis* DeGeer, 1775
- p. 115, add *rubromarginata* Plavilstshikov, 1932f: 174 (*Leptura*) in synonymy with *Stictoleptura rufa dimidiata* (K. Daniel & J. Daniel, 1891)
- p. 116, correct spelling of *semirufa* (Kraatz, 1880) [in synonymy with *Stictoleptura trisignata* (Fairmaire, 1852)] to *semirufula*
- p. 116, remove *martini* Pic, 1945 from synonymy of *Stictoleptura trisignata* (Fairmaire, 1852); the name is infrasubspecific
- p. 116, add BY EN LA LT JA NE NO to distribution of *Stictoleptura variicornis* (Dalman, 1817)
- p. 117, correct year for *Thrangalia* Holzschuh and *T. diaboliella* Holzschuh to 1995
- p. 117, add AB to distribution of *Vadonia bitlisiensis* Chevrolat, 1882
- p. 117, correct page of distribution of *fischeri* Zubkov, 1829 to 168 [in synonymy with *Vadonia bipunctata bipunctata* (Fabricius, 1781)]
- p. 117, add (*Leptura*) to entry: *cribricollis* Pic, 1889b: 20 [mispaginated: 5] [in synonymy with *Vadonia bitlisiensis* Chevrolat, 1882]
- p. 118, *Vadonia unipunctata unipunctata* (Fabricius, 1787) is declared nomen protectum, but this was not supported according to ICZN Art. 23.9.1.2. The supporting references are given below by M. L. Danilevsky, in Appendix 1
- p. 118, add *uninstigmata* Pic, 1891b: 9 (*Leptura*) to synonymy of *Vadonia unipunctata unipunctata* (Fabricius, 1787)
- p. 119, add BY and JA to distribution of *Acmaeops angusticollis* (Gebler, 1833)
- p. 119, remove JA from distribution of *Acmaeops marginatus* (Fabricius, 1781)
- p. 119, *Acmaeops sachalinensis* Tsherepanov, 1978 is listed as junior synonym of *A. angusticollis* (Gebler, 1833); this synonymy is to be credited to M. L. Danilevsky, it was based on study of the type material and was published within the Catalogue for the first time
- p. 119, remove entries *fulvipennis* Mannerheim, 1853: 251 (*Pachyta*), *longiceps* Kirby, 1837: 187 (*Leptura*) and *semimarginatus* Randall, 1838: 30 (*Leptura*) from synonymy, and add *ustulatus* Motschulsky, 1860: 148 (*Pachyta*) to synonymy of *Acmaeops pratensis* (Laicharting, 1784)
- p. 119, add (*Toxotus*) to entry: *dentipes* Mulsant, 1842a: 209 [in synonymy with *Akimerus schaefferi schaefferi* (Laicharting, 1784)]
- p. 120, correct year for *Brachyta bifasciata bifasciata* (Olivier) to 1797, and add MG to its distribution
- p. 120, remove NMO from distribution of *Brachyta bifasciata japonica* and correct reference to: Matsushita, 1933b: 178
- p. 120, add [= 1892b: 81] and the synonym *conjuncta* Rost, 1893: 344 to *Brachyta caucasica caucasica* Rost, 1892a
- p. 120, remove [NO] from entry *duodecimmaculata* Fabricius, 1781: 248 (*Leptura*) [in synonymy with *Brachyta interrogationis* (Linnaeus, 1758)]
- p. 120, remove [RN] from *kraatzi* Ganglbauer, 1889c: 468 [in synonymy with *Brachyta interrogationis* (Linnaeus, 1758)]
- pp. 120/121, remove *bernardinus* Pic, 1915a: 41 (*Evodinus*) and *theresae* Pic, 1915a: 41 (*Evodinus*) from synonymy of *Brachyta interrogationis* (Linnaeus, 1758); the names are infrasubspecific
- pp. 120/121, correct data for *immaculatus*, *mulsanti*, *multiguttatus*, *plavilstshikovi*, and *prescutellaris* to *immaculatus* Pic, 1934f: 28 (*Evodinus*), *mulsanti* Pic, 1934f: 31 (*Evodinus*), *multiguttatus* Pic, 1934f: 31 (*Evodinus*), *plavilstshikovi* Pic, 1934f: 31 (*Evodinus*), and *prescutellaris* Pic, 1934f: 31 (*Evodinus*) [all in synonymy with *Brachyta interrogationis* (Linnaeus, 1758)]
- p. 121, remove entry *mutabilis* Motschulsky, 1859a: 233 (*Evodinus*) from synonymy of *Brachyta striolata* (Gebler, 1817), it is correctly listed in synonymy with *Brachyta variabilis scapularis* (Mannerheim, 1849)
