ABSTRACT. Homonymies in Callichromatini (Coleoptera, Cerambycidae). New names proposed: *Beaveriella* **nom. nov.** for *Beaveria* Lane, 1970, pre-occupied by *Beaveria* Lee, 1965 (Trematoda, Troglotrematidae); *Monnechroma* **nom. nov.** for *Xenochroma* Schmidt, 1924, pre-occupied by *Xenochroma* Warren, 1902 (Lepidoptera, Geometridae). Consequently, the following new combinations are made: *Beaveriella nacta* (Lane, 1970) **comb. nov.**, *B. sagda* (Monné & Martins, 1972) **comb. nov.**, *Monnechroma azurea* (Demets, 1976) **comb. nov.**, *M. seabrai* (Fragoso & Monné, 1989) **comb. nov.**, *M. subpulvereum* (Schmidt, 1924) **comb. nov.**, *M. tibialis* (Giesbert, 1987) **comb. nov.**, and *M. uniforme* (Gounelle, 1911) **comb. nov.**

KEYWORDS. *Beaveriella*; Cerambycinae; *Monnechroma*; nomenclatural changes; taxonomy.

RESUMO. Homônimas em Callichromatini (Coleoptera, Cerambycidae). São propostos: *Beaveriella* **nom. nov.** para *Beaveria* Lane, 1970, pré-ocupado por *Beaveria* Lee, 1965 (Trematoda, Troglotrematidae); *Monnechroma* **nom. nov.** para *Xenochroma* Schmidt, 1924, pré-ocupado por *Xenochroma* Warren, 1902 (Lepidoptera, Geometridae). Conseqüentemente, as seguintes novas combinações são efetuadas: *Beaveriella nacta* (Lane, 1970) **comb. nov.**, *B. sagda* (Monné & Martins, 1972) **comb. nov.**, *Monnechroma azurea* (Demets, 1976) **comb. nov.**, *M. seabrai* (Fragoso & Monné, 1989) **comb. nov.**, *M. subpulvereum* (Schmidt, 1924) **comb. nov.**, *M. tibialis* (Giesbert, 1987) **comb. nov.** e *M. uniforme* (Gounelle, 1911) **comb. nov.**

PALAVRAS-CHAVE. *Beaveriella*; Cerambycinae; *Monnechroma*; nomenclatura; taxonomia.

***Beaveriella* nom. nov.**

Beaveria Lane, 1970: 51 (*non* *Beaveria* Lee, 1965); Monné, 2005: 24 (cat.).

Type species: *Beaveria nacta* Lane, 1970, by original designation.

Lane (1970) described *Beaveria* as a genus of Coleoptera, Cerambycidae, Cerambycinae, Callichromatini. However, this name was used by Lee (1965) in Trematoda, Troglotrematidae. It is here proposed, *Beaveriella*, as a substitution name. As a result, the following changes are introduced:

***Beaveriella nacta* (Lane, 1970) comb. nov.**

Beaveria nacta Lane, 1970: 52; Monné, 2005: 24 (cat.).

***Beaveriella sagda* (Monné & Martins, 1972) comb. nov.**

Beaveria sagda Monné & Martins, 1972: 76, fig. 1; Monné, 2005: 24 (cat.).

***Monnechroma* nom. nov.**

Callichroma (*Xenochroma*) Schmidt, 1924: 300, 378 (*non* *Xenochroma* Warren, 1902).

Xenochroma; Podany, 1965: 38; Monné, 2005: 38 (cat.).

Type species: *Callichroma* (*Xenochroma*) *subpulvereum* Schmidt, 1924, by original designation.

Schmidt (1924) proposed *Xenochroma* to designate a subgenus of *Callichroma* (Coleoptera, Cerambycidae, Cerambycinae). However, this name was found to be pre-

occupied by *Xenochroma* Warren (1902) in Lepidoptera, Geometridae. Therefore, *Monnechroma* **nom. nov.**, is here proposed. The nominal genus is in honor to Miguel A. Monné. The following changes are introduced:

***Monnechroma azurea* (Demets, 1976) comb. nov.**

Xenochroma azurea Demets, 1976: 136; Monné, 2005: 38 (cat.).

***Monnechroma hovorei* (Giesbert, 1998) comb. nov.**

Xenochroma hovorei Giesbert, 1998: 62, fig. 3; Monné, 2005: 38 (cat.).

***Monnechroma seabrai* (Fragoso & Monné, 1989) comb. nov.**

Xenochroma seabrai Fagoso & Monné, 1989: 210; Monné, 2005: 38 (cat.).

***Monnechroma subpulvereum* (Schmidt, 1924) comb. nov.**

Callichroma (*Xenochroma*) *subpulvereum* Schmidt, 1924: 309.
Xenochroma subpulvereum; Podany, 1965: 39; Monné, 2005: 38 (cat.).

***Monnechroma tibialis* (Giesbert, 1987) comb. nov.**

Xenochroma tibialis Giesbert, 1987: 36, fig. 1; Monné, 2005: 38 (cat.).

***Monnechroma uniforme* (Gounelle, 1911) comb. nov.**

Callichroma uniforme Gounelle, 1911: 169.
Callichroma (*Xenochroma*) *uniforme*; Schmidt, 1924: 379.
Xenochroma uniforme; Podany, 1965: 39; Monné, 2005: 38 (cat.).

Acknowledgment. We thank Dr. Miguel A. Monné who discovered the homonymies and provided us the references.
